Presentation

A Master 2 computer science student, I am passionate about the complex and evolving world of software systems and distributed environments. Equipped with a strong academic background and an unwavering passion for programming, I seek opportunities to apply my technical skills and contribute meaningfully to innovative projects.

School, academic curriculum and diplomas obtained

- ✓ In **master's thesis II in computer science option** Distributed environment software system (SLED) **on the theme ' Deep Analysis of chikunguya using machine learning tools '**
- ✓ **MASTER I RESEARCH** in computer science option **SLED** (fairly good honors) at the University of Ngaoundéré in 2023. (**Major promotion**)
- ✓ **COMPUTER SCIENCE DEGREE** at the University of Ngaoundéré (fairly good honors) in **2022**
- ✓ **BACCALAUREATE C** in **2019** (fairly good mention)

LANGUAGES

- ✓ **French** (well spoken)
- ✓ **English** (Level B1)

My skills

- ✓ **Frontend development** (ReactJS, Styled Components, Sass, TailwindCSS, AstroJS, NextJS, ingui);
- ✓ **Programming language** (C, C++, JavaScript, Typescript , Python)
- ✓ **Mastery of software and tools** (Git, VSCODE, CMake , etc.)
- ✓ **Deployment** (Netlify , Vercel, WebHostApp)

Professional skills

- ✓ **2024 –: Sygalin Professional Internship CANAL +**
- ✓ **2019** : Holder of a certificate of completion of training in introduction to Maintenance and surveillance cameras (Mention Bien)

Projects

- ✓ **Scheduler** : software that allows you to see with visual graph (GRANT DIAGRAM) for Scheduling of processes in Unix system.
Link: <https://github.com/mohamedelbachir/Scheduler>
- ✓ **IT generality** : website to selling tech product like camera and furniture.
Link: <https://generaliteinformatique.vercel.app>
- ✓ **Jumper**: The game i made to learn C++.
Link: <https://github.com/mohamedelbachir/JumperGame>
