Summary

I hold a Master's degree (Master II) in Computer Science, specializing in software systems architecture and distributed environments. Passionate about programming and technological innovation, I aim to apply my skills to projects with a positive impact, delivering modern and efficient solutions.

Education

Master II	University of Ngaoundéré , Computer Science – Specialization: Software Systems and Distributed Environments (<i>SLED</i>) • Thesis: <i>Deep Analysis and Prediction of Chikungunya Using Ensemble Regression Approach</i> • Grade : <i>Très Bien</i>	2024
Master I	University of Ngaoundéré , Research Master in Computer Science – Specialization: SLED • Grade : <i>Assez Bien</i> • Top of the class (Major de promotion)	2023
Bachelor's	University of Ngaoundéré , Computer Science • Grade : <i>Assez Bien</i>	2022
Baccalauréat C (Scientific Baccalaureate)	• Grade : <i>Assez Bien</i>	2019

Experience

Garoua, Cameroun 2025 –

Temps partiel, PDG & Co-fondateur

- Leader visionnaire passionné par la technologie innovante et les produits à impact.

Yaounde, Cameroon *august 2025* – present

Temps partiel, Web developer

- Creating the website of the marketplace
- Create dashboard to manage announces

GNDC (Grand Nord Developer Community) [🔗](#)

Maroua, Cameroon 2024 –

Part-time , Lead Frontend Developer

- I manage team and scheduling task
- I developed Frontend of the website using **NextJS** , **TailwindCSS**.
- I added Authentification and authorisation using LuciaAuth and work with server action
- I integrated database using **Supabase** and an ORM **Drizzle ORM**

Sygalin Sas CANAL +, Frontend Developer Intern

- Developed an association management application (AssoEase).
- Technologies used : **React, TypeScript, Mantine UI.**

Ngaoundéré, Cameroon
2024 – 2025

Volunteering

HireMe *Part-time*, Developer Web & Mobile

Remote, May 2025 –

GI (Généralité informatique), Web developer

Garoua, Cameroon
Jul 2022 – Aug 2022

Projects

GNDC Website

[See the projet](#)

- Build user friendly interface for the community.
- Build authentication and authorization.
- Adding Content Management System (blog, forum)
- **Tools:** PostgreSQL, Next.js, Tailwind CSS, Supabase, TypeScript, DrizzleORM, Zod, MDX, LuciaAuth.
- **Opensource :** [See the projet](#)

U-sentry

[See the Web projet](#)
[See the App projet](#)

- Android and iOS application for alert management in a university environment.
- Features: Post and notification management, mobile UI with personalized pathways and favorites, real-time updates with Supabase.
- **Tools:** React, Expo, TypeScript, Redux, Supabase, React Native.

Chair Rental (In progress)

[See the projet](#)

- E-commerce platform for booking chairs for events in Cameroon.
- Features: Cart management, product tracking, administrator dashboard.
- **Tools:** React, TypeScript, Redux.

Généralité Informatique

[See the projet](#)

- E-commerce for technological products, including cameras and supplies.
- Features: Product display, catalog management, landing page style interface, administrator dashboard.
- **Tools:** React, JavaScript, Firebase, Material UI, Sass.

Scheduler

[See the projet](#)

- Visualization software for GANTT charts for process scheduling in UNIX systems.
- Features: Theme management, implementation of scheduling algorithms (Round Robin, FCFS, SJF, SRTF), and complete documentation.
- **Tools:** C++, SDL, ImGui, SDL_TTF, SDL_Image, TypeScript, Astro.

Jumper

[See the projet](#)

- Educational game in C++ to learn programming basics.
- Features: Screen, sound, and control management.
- **Tools:** C++, SDL.

Technical Skills

Frontend Development: ReactJS, Styled Components, Sass, TailwindCSS, NextJS, AstroJS, React Native.

Backend Development: NodeJS, ExpressJS, Firebase, Drizzle ORM, PostgreSQL, PHP.

Libraries & Frameworks: NextJS, SDL, ImGUI, Mantine UI, Shadcn UI, Material UI.

Programming Languages: C, C++, JavaScript, TypeScript, Python.

Tools: Git, VSCode, CMake, Cursor, Codeblocks.

Deployment: Netlify, Vercel, WebHostApp, Render.

Certifications

Meta frontend Developer

[Coursera Certificate](#)

Frontend Developer

[Creedly Certificate](#)

C++

[Sololearn Certificate](#)

Building Blog using MERN Stack

[Udemy Certificate](#)

- Tech : Mongo , Express , React , NodeJS

LaTeX – Issued by AUF

[AUF Certificate Link](#)

CITS – Cameroon International Tech Summit

[CITS Certification](#)

- Participant in the national hackathon as a frontend developer.
- Team Lead for a team of 5 people.

Certificate in Initiation to Maintenance and Surveillance Cameras (2019)

- Issued by **GI (Généralité Informatique)**, Garoua.
- Grade : *Bien*.

Languages

- **French:** Fluent
- **English:** B2 Level

Interests

Programming, Science, Animals, Anime, Video Games, Comic Books.
